

Product Name	Product Type	Application
<b>Wetting Agents</b>		
REGALEN AB	Wetting Agent	It is effective as a whitener and hydrophilicity provider in the bleaching process of cotton before dyeing, in cotton and bobbin dyeing, and in sulfur dyeing.
REGALEN MRS-28	Mercerized Wetting Agent	Mercerized wetting agent with excellent wetting and sinking ability
REGALEN ST		
REGALEN AWA	WETTING & DEAEERATING	It is a foam controlled wetting and deaerating agent used in pre-treatment and dyeing
REGALEN TAB	Quick Wetting	Serial wetting agent providing excellent wetting and hydrophilicity
REGALEN MN	Wetting Agent	Wetting agent that provides high hydrophilicity and whitening effect, especially in cold bleaching.
REGALEN AP	Wetting Agent	Nonionic wetting agent
REGALEN WA	Wetting Agent	Nonionic wetting agent
REGALEN W89	Wetting Agent	
REGALEN W64	Wetting Agent	It is used as a wetting agent in the pre-treatment of cotton and its blends.
REGALEN 6465	Wetting Agent	Nonionic wetting agent
REGALEN AD	Quick Wetting	Serial wetting agent with excellent wetting and sinking effect
REGALEN AB60	Wetting Agent	
REGALEN GD	Wetting Agent	It is used as a wetting agent in the pre-treatment of cotton blends.
<b>OIL REMOVER</b>		
REGALEN BTS	WETTING AGENT (BLEACHING AGENT)	It is used as a wetting agent and degreaser in the pre-treatment of cotton and its blends.
REGALEN BTS CONC.	WETTING AGENT (BLEACHING AGENT)	It is used as a wetting agent and degreaser in the pre-treatment of cotton and its blends.
REGALEN SR95	OIL REMOVER	Washing agent with high degreasing effect
REGALEN SRM	SOLVENT BASED STAIN REMOVER	SOLVENT BASED STAIN REMOVER
REGALEN SRE	OIL REMOVER	Oil Remover
<b>SPECIAL FINISHING MATERIAL</b>		
REGAPRE SFFC	SQUEAKING EFFECT CHEMICAL	Provides a squeaky effect and softens cotton and wool fibers

<b>BLEACHING INGREDIENTS</b>		
<b>REGALEN CBA</b>	COMBINE BLEACHING MATERIAL	It is used as a combined bleaching agent in the pre-treatment of cotton and its blends.
<b>REGALEN WIB</b>	BLEACHING WETTING MAT	BLEACHING WETTING MAT
<b>REGALEN SKD</b>	COMBINE BLEACHING MATERIAL	Concentrated combination bleach
<b>REGALEN MLT</b>	MULTI-PURPOSE BLEACHING AGENT	
<b>REGALEN WCB</b>	BLEACHING MATERIAL	It is used to remove synthetic and natural sizes in the pre-treatment of cotton and its blends. There is no need for oxidative or enzymatic desizing.
<b>ION TRAPPERS</b>		
<b>REGİYON LPH</b>	ION TRAPPERS	It is a complexing agent that works effectively in all aqueous systems, preventing precipitation that may occur due to high water hardness and temperature.
<b>REGİYON CPX</b>	COMPLEX BUILDING AND HARDNESS RELIEF	
<b>REGİYON IT</b>	COMPLEX BUILDER	
<b>REGİYON ABC</b>	COMPLEX BUILDER	
<b>REGİYON AB</b>	ION TRAPPERS	
<b>REGİYON BAR</b>	ION TRAPPERS	Highly qualified ion trap
<b>STABILIZER</b>		
<b>REGASTAB HE</b>	PEROXIDE STABILIZER	Peroxide stabilizer for bleaching
<b>AVİVAJ MALZEMESİ</b>		
<b>REGAPRE AVJ</b>	AVIVATING MATERIAL	yarn spinning agent
<b>REGAPRE HCS</b>	SILICONE WAX EMULSION	Silicone wax emulsion

<b>ANTI-FRACTURE</b>		
REAGALUP PC	OIL-BASED ANTI-FRACTURE	Oil based anti-crack
REGALUB MTA	ANTI-FRACTURE	Polymeric based anti-breakage
REGALUB CRS	ANTI-FRACTURE	Polymeric based anti-breakage
<b>DEFOAMER</b>		
SALTFOAM EBD	DEFOAMER	DEFOAMER
REGANTİFOAM NSD	DEFOAMER	Mineral oil based defoamer
SALTFOAM F18	DEFOAMER	Oil based defoamer
SALTFOAM BAST	DEFOAMER	defoamer
SALTFOAM F45	DEFOAMER	Oil based defoamer
REGANTİFOAM TG	DEFOAMER	It is an effective defoamer that works without being affected by variable process conditions such as pH and temperature.
<b>ACIDS AND BASES</b>		
REGASİT AD-EX	ACID DONOR	ACID DONOR
REGASİT N	NEUTRALIZATION ACID	NEUTRALIZATION ACID
REGAMOL BA	REACTIVE DYE AUXILIARY POWDER	Powder alkali for alternative reactive dyeing instead of soda
REGASİT EW-R	NEUTRALIZATION ACID	NEUTRALIZATION ACID
<b>POLYETHYLENE EMULSION</b>		
REGAPRE CP	POLYETHYLENE EMULSION	
REGAPRE VPE	POLYETHYLENE EMULSION	Combination of high density softening polyethylene
REGAPRE KA	FINISHING MATERIAL	It has an excellent effect on the finishing of fabrics produced from all fibers and their mixtures.
REGAPRE N	FINISHING MATERIAL	High density PE emulsion, which increases tear and rupture resistance and provides ease of sewing by reducing friction

<b>DYE ASSISTANT</b>		
<b>REGAMOL LR</b>	REACTIVE DYE AUXILIARY POWDER	Reactive dyeing dyeing aid that enables accurate and reliable dyeing
<b>REGACARRIER 45</b>	CONC. ECOLOGICAL CARRIER	ECOLOGICAL CARRIER
<b>REGAMOL RDA</b>	REACTIVE DYE AUXILIARY	It is used as a dispersant and protective colloid in reactive dyeings.
<b>WASHERS</b>		
<b>REGASOAP 760</b>	FINAL SOAPING AGENT. (COMPLEX MAKING FEATURE)	Concentrated reactive dye washing soap
<b>REGASOAP LSA</b>	FINAL SOAPING AGENT. (DILUTE ION STRAPPER)	Reactive dyeing washing soap
<b>REGASOAP PP-V</b>	REACTIVE WASHING SOAP	Low temperature reactive washing soap
<b>REGASOAP CFV</b>	REACTIVE WASHING SOAP	REACTIVE WASHING SOAP
<b>REGASOAP PP</b>	WASHING SOAP	Low temperature reactive washing soap
<b>REGALEN POL</b>	OLIGOMER INHIBITOR	PES ensures that the oligomer formed during the dyeing of the product remains dispersed.
<b>DISPERGATOR EQUALIZER</b>		
<b>REPERGAL KP</b>	DISP.-EGL FOR PES	Dye starter auxiliary dispersion and leveling agent used in dyeing PES products
<b>REPERGAL PS</b>	DISP.-EGL FOR PES	Dye starter auxiliary dispersion and leveling agent used in dyeing PES products
<b>REPERGAL PA</b>	DISP.-EGL.	Dye starter auxiliary dispersion and leveling agent used in dyeing PES products
<b>REPERGAL PBS</b>	ANTI-BACKPAINTING	Dispersing Agent that prevents back dyeing in denim
<b>REPERGAL DE CONC</b>	DISP.-EGL.	Dye starter auxiliary dispersion and leveling agent used in dyeing PES products

<b>FIXATOR</b>		
REGAFIX FC	FIXATOR	Fixator for cellulose and its mixtures suitable for scarf and pulling methods
<b>SILICONES</b>		
REGASİL SOFT KAR		
REGASİL SOFT KLM	HYDROPHILE SILICONE	
REGASİL MSY	SILICONE SOFTENER	Micro silicone softener used effectively in knitted/woven materials from all kinds of synthetic and natural fibers.
REGASİL MCS	MACRO SILICONE	macro silicone softener
REGASİL HDF SOFT	HYDROPHILE SILICONE	Concentrated hydrophilic silicone softener
REGASİL ABB SOFT	HYDROPHILE SILICONE	Cationic hydrophilic silicone
REGASİLSOFT HSFK	HYD. SIL. FOR KNITTING	Hydrophilic Silicone, especially for knitted and terry fabrics
REGASİL BM	SILICONE SOFTENER	Micro silicone softener used effectively in knitted/woven materials from all kinds of synthetic and natural fibers.
REGASIL PLUS	CONC. MICRO SILICONE	It gives the material an extremely soft handle and surface smoothness after application.
<b>SOFTENER</b>		
REGASOFT QB	CATIONIC LIQUID SOFTENER	Cationic liquid softener
REGAPRE AKA	COMBIN FINISHING MATERIAL.	Nonionic polyethylene hydrophilic Silicone Mixture special softening agent
REGAPRE AR	COMBIN FINISHING MATERIAL.	Softening agent for hydrophilic silicone and polyethylene mixture knitted materials
<b>WATER REPELLENT</b>		
REGAPRE FBA	WATER AND OIL REPELLENT	Fluorocarbon based water repellent finishing material.
<b>RESINS</b>		
REGASET CT	REACTIVE RESIN	It is a low formaldehyde content resin finishing material for cellulosic fibers and blended fabrics.
REGASET WW	FORMALDEHYDE-FREE RESIN	It is a formaldehyde-free resin finishing material for cellulosic fibers and blended fabrics.

<b>RESINS</b>		
<b>REGASET CT</b>	REACTIVE RESIN	It is a low formaldehyde content resin finishing material for cellulosic fibers and blended fabrics.
<b>REGASET WW</b>	FORMALDEHYDE-FREE RESIN	It is a formaldehyde-free resin finishing material for cellulosic fibers and blended fabrics.
<b>POLYETHYLENE EMULSION</b>		
<b>REGAPRE CP</b>	POLYETHYLENE	
<b>REGAPRE VPE</b>	POLYETHYLENE	Combination of high density softening polyethylene
<b>REGAPRE KA</b>	FINISHING MATERIAL	It has an excellent effect on the finishing of fabrics produced from all fibers and their mixtures.
<b>REGAPRE N</b>	FINISHING MATERIAL	High density PE emulsion, which increases tear and rupture resistance and provides ease of sewing by reducing friction
<b>AVIVAJ AGENT</b>		
<b>REGAPRE AVJ</b>	AVIVAJ AGENT	yarn spinning agent
<b>REGAPRE HCS</b>	SILICONE WAX EMULSION	SILICONE WAX EMULSION
<b>SPECIAL FINISHING MATERIAL</b>		
<b>REGAPRE SFFC</b>	SQUEAKING EFFECT CHEMICAL	Provides a squeaky effect and softens cotton and wool fibers
